

Figure 2

Figure 2 illustrates a schematic diagram of a fluid control device, showing three views: (1) Top view, (2) Cross-sectional side view, and (3) Bottom view.

The device consists of a rectangular frame (1) with internal channels (7A, 7B) and a central component (16). The cross-sectional view (2) shows the internal structure, including a central piston (6) and fluid flow paths (4A, 4B) indicated by arrows. The bottom view (3) shows the underside of the device, including internal channels (7A, 7B) and a central component (16).
